Re: Letter of Recommendation for Global Consulting and Investigating Services

Dear Teddy:

URS Security has engaged Global Consulting and Investigating Services as the "vendor of choice" to supply background investigations for our Workplace Violence program. Mr. Theodore Leb and Global Consulting and Investigating Services provide our organization with custom-tailored investigation reports for this sensitive and time-sensitive programmatic requirement.

Having previously used other vendors for similar services, we are pleased to say that Global provides both an exceptional product and superlative customer service. The materials we receive from Global are consistently accurate and are always professionally prepared. In addition, they are very responsive to our requirements and have been willing to adapt the structure of their reports to address our specific conditions.

The services that Global Security Consulting provides are indispensable to our Company's operations and to the continued success of our security program. We are very pleased with the quality of work and professional approach that Global provides and highly recommend their services. Mr. Leb and his staff are responsive to inquiries, they deliver their products when promised, and follow up to ensure their reports are received and meet the objectives.

By engaging Global Consulting and Investigating Services for our background investigations, URS has realized significant cost savings over the services of other similar service providers that we have used.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "J. Herrity".

Joseph J. Herrity
